

Kit Assembling

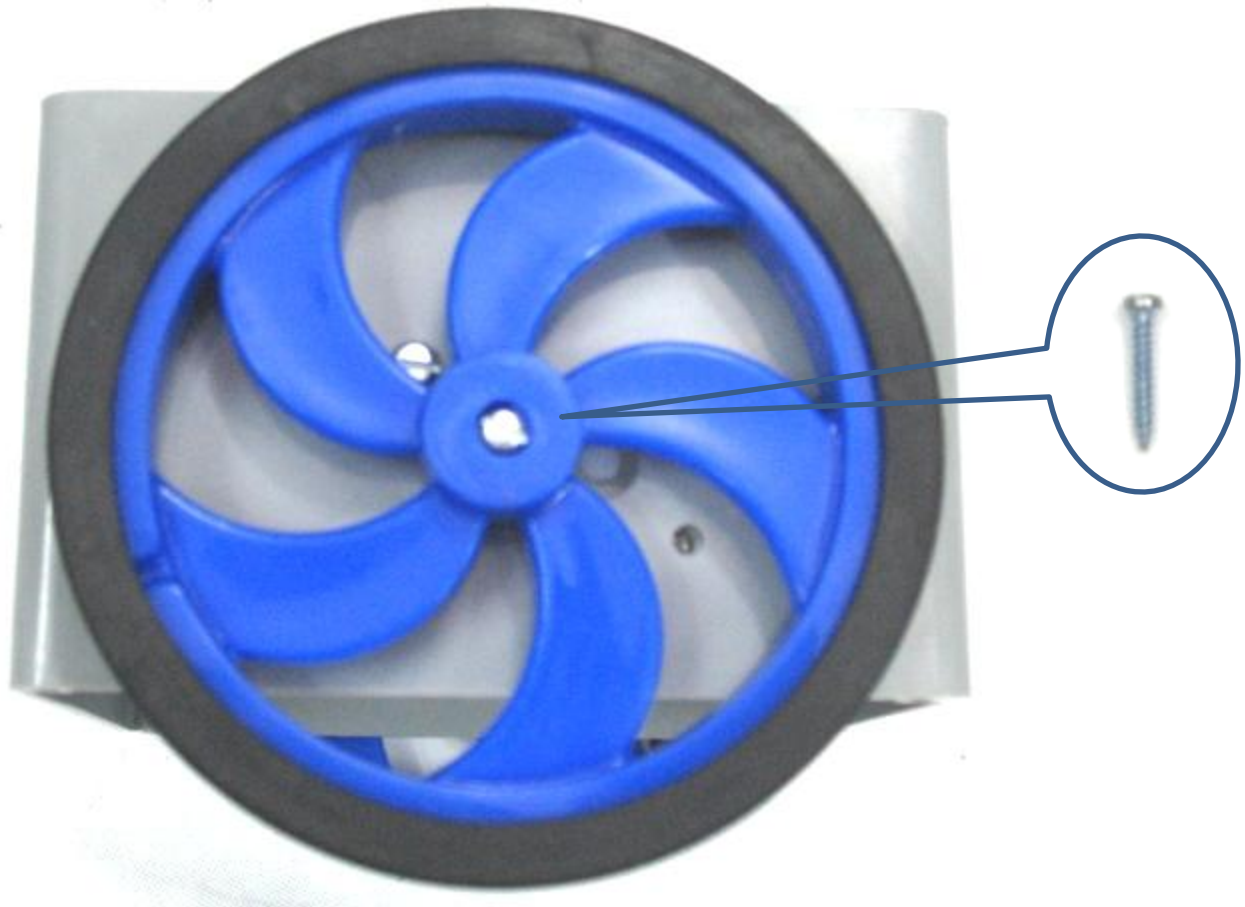

- Nut, Bolt, Screws & Spacers.

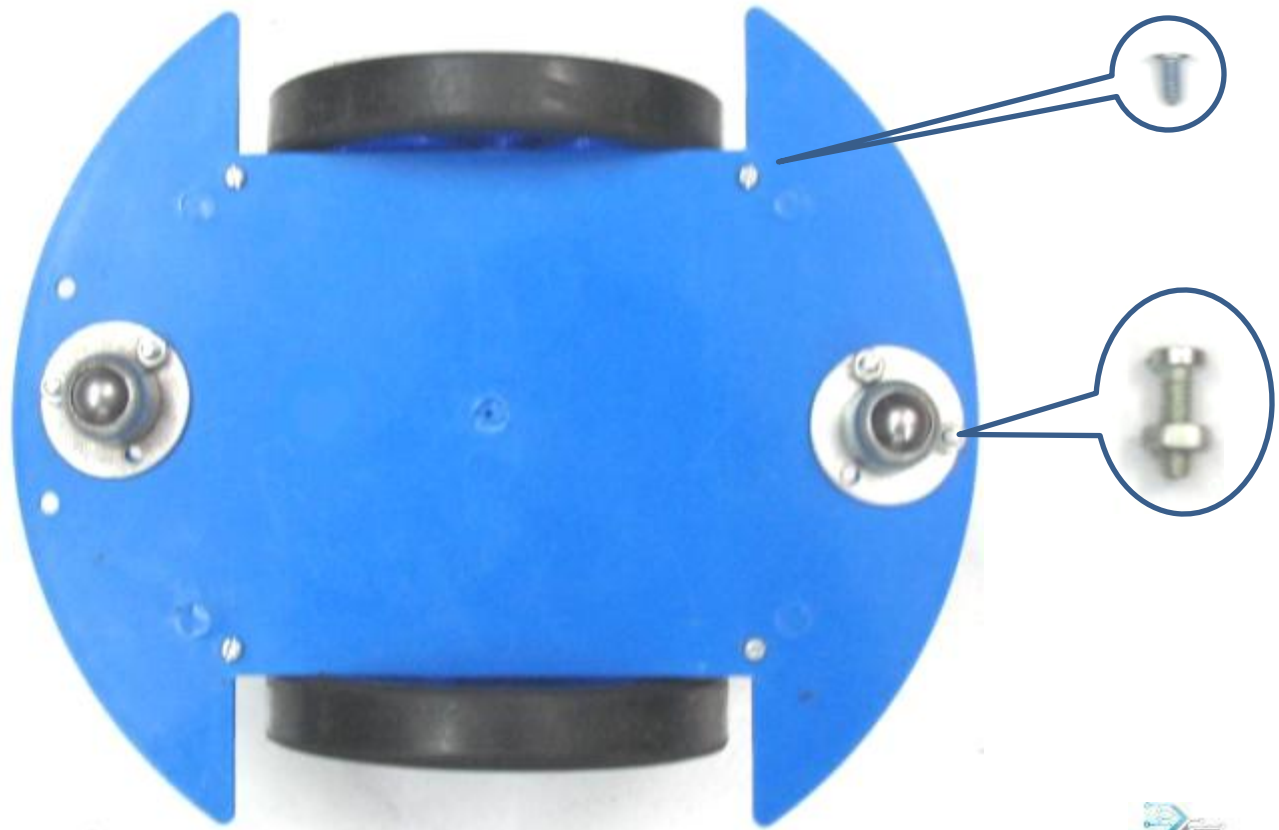

Mount the motors on chassis as shown below

Fix wheels to the shaft of the motors

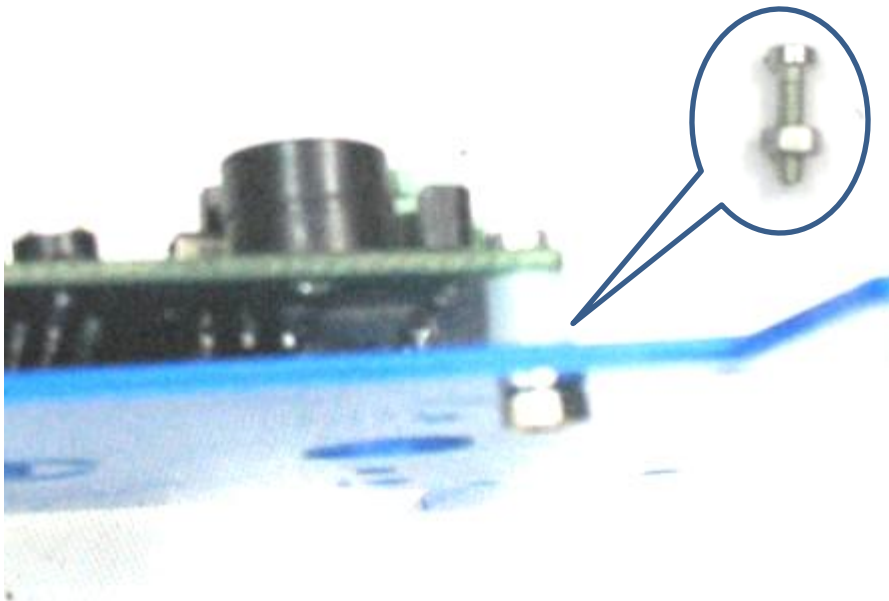

Fix the lower plate to the chassis using
tiny screws & the caster wheels using
nut-bolts

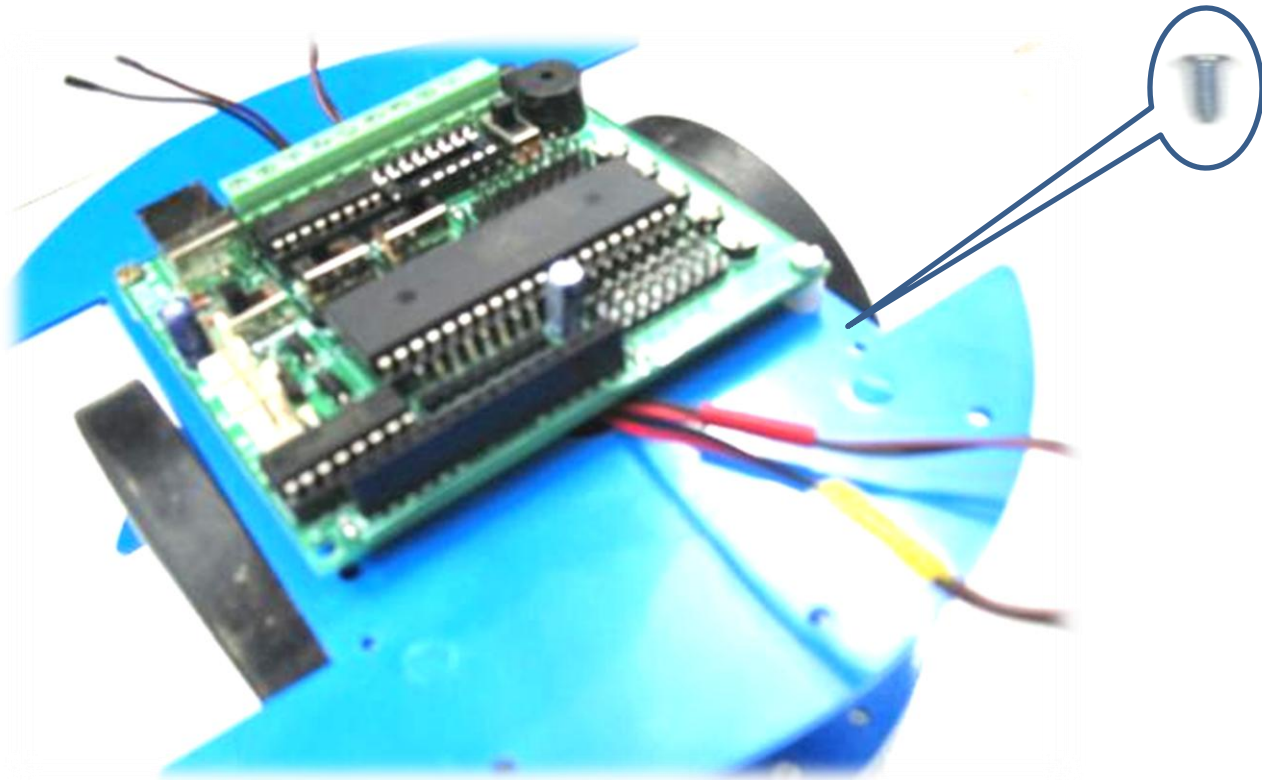

Connect battery snapper & place the batteries at the upper side of the chassis

Fix motherboard on upper plate by using nut-bolt & the spacers

Take out motor wires from motor side
& battery wire from other side and fix
upper plate on chassis with tiny screws
